

Jane Godwin

Author / Publisher / Speaker

Early Years Session

Jane Godwin is a publisher, and also the highly acclaimed, award-winning author of over twenty books for children, across all styles and ages. Jane is a popular and engaging speaker who works with schools, libraries, community groups and at festivals and writers' centres.

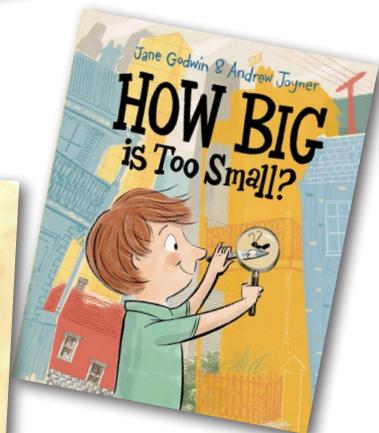

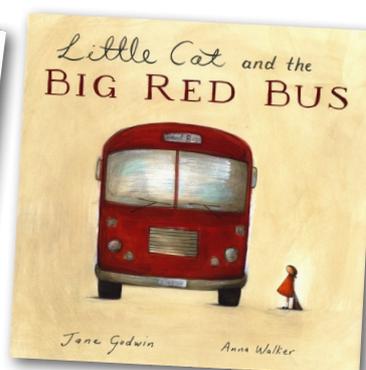

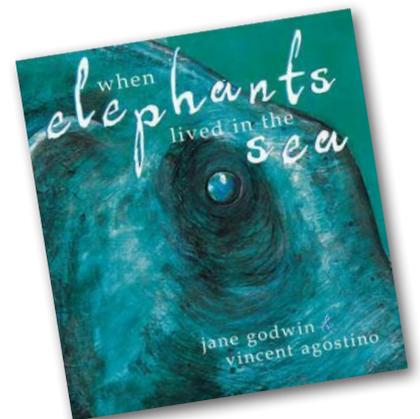

For kindergarten - year 2, Jane provides a fun and interactive session that brings the magic of picture books to life.

Sharing her own stories as examples, she takes the students through the process of picture book creation. From inspiration and imagination to illustration and publication, Jane covers the whole process!

Children will come away with a greater understanding of how a picture book is made, and be inspired to write and illustrate their own stories using strategies Jane has explored with them.

This session can also include a drawing/story start activity with the children. Teachers can also request for Jane to focus on a particular book if the children have been exploring that one in the classroom.
