About Craig Smith

Creator of the hugely popular picture book *The Wonky Donkey*. In Australia, more than 250,000 copies have been sold. It was the highest selling picture book in 2010 and remains in the top three best-selling picture books of all time (outsold only by *The Very Hungry Caterpillar* and *Where's the Green Sheep?*).

Craig has performed *The Wonky Donkey* to more than 250,000 preschoolers and school children, mostly in New Zealand. He believes the move into children's books was logical as his music and writing are borne out of a love of 'story telling'.

"It's vital to make reading fun whether it's through funny illustrations, cheeky rhymes and a rollicking rhythm. I firmly believe that the marriage of song, word and illustration help children learn to read by offering a visual, kinesthetic and aural experience," says Smith.

Craig Smith lives in New Zealand. He will be available for performances in Brisbane and Melbourne exclusively through Booked Out Agency. Limited time slots available.
